CHEBOXGAN AN A POINT FOR MAN-

UPACTURERS. The TRIBUNE has on different occasions called attention to the advantages
Cheboygan possesses as a location for various manufacturing purposes, and important industries. The prospects of the completion of the Jackson, Lansing & Saginaw road to the straits, and the building of the Detroit, Mackinaw &! Marquette road through the upper pen- man emigration to the United States is advantages she already possessed.

Among the many manufacturies and industries which, in our opinion, could be advantageously located here, which opinion we are satisfied an investigation would spatial. insula, will add greatly to the natural preceptibly increasing. This is good here, which opinion we are satisfied an investigation would sustain, are smelting works, dry-dock, tannery, various manufacture of hard wood, wood pulp, for manufacturing paper, etc. In the first place Cheboygan possesses the very best facilities for shipping to the various markets, east or west, at low rates all products that might be manufactured. She possesses one of the best harbors upon the great chain of lakes and is visited regularly by some of the best steam-ers that travarse these inlend sees each. ers that traverse these inland seas, each season increasing the number, and thus provides that any person having cause to suspect the character of any article of the competition which will always insure the lowest rates for freight. For smelting works we know of no location offering superior advantages to this village. It is already accessible, by water, to the great Escanaba iron ore regions, and the raw material could be delivered here with but little expense. The completion of the upper peninsula road will bring it in reach of the vast mines of the completion of the upper peninsula road will bring it in reach of the vast mines of the character of any article of any article of the character of any article of any article of the same for analysis, and the dealer refusing to comply shall be subject to arrest and fine not exceeding one hundred dollars. We have not learned what is to be done with the dealer if aduleration is discovered. Persons of that class are severely handled. in England, when caught.

Alwa Alwa Alwa Machine of the speakers and is reported as saying that the Democratic party proposes to transpurate its nomination of the upper peninsula road will bring it in reach of the vast mines of the speakers and is reported as saying that the Democratic party proposes to transpurate its nomination of the upper peninsular road will be subject to arrest and fine not exceeding one hundred dollars. We have not learned what is to be done with the dealer refusing to smooth over and counteract the effect of his disclosure of the designs of the party. At the Democratic jollification at Washington over the selection of Cincinnati as the place for holding the Democratic national convention. Mr. Mill was one of the speakers and is reported as saying that the Democratic party is proposed to transpurate its nominate of the same for analysis, and the dealer refusing to the dealer refusing to smooth over and counteract the effect of his disclosure of the designs of the party. At the Democratic politication at Washington over the selection of Cincinnation and the refusion of the same for analysis, and the dealer refusion of the dealer ref adding to her facilities and increasing to suspect the character of any article of Sixth Ohio district, has been speaking bring it in reach of the vast mines of ernment issued an order forbidding the ore in the Marquette region. In this importation of cattle from the United vicinity are vast tracts of hard wood for making charcoal, which is necessary for use in a furnace. The inland route already completed, and the proposed Black river improvement, which may now be looked upon as an assured fact, makes this hard wood easily accessions. In this simportation of cattle from the Chited States for fear of the pleuro-pneumonia, and, as a retort, Secretary Sherman at once issued an order prohibiting the importation of Cattle from the Chited States for fear of the pleuro-pneumonia, and, as a retort, Secretary Sherman at once issued an order prohibiting the importation of cattle from the Chited States for fear of the pleuro-pneumonia, and, as a retort, Secretary Sherman at once issued an order prohibiting the importation of cattle from the Chited States for fear of the pleuro-pneumonia, and, as a retort, Secretary Sherman at once issued an order prohibiting the importation of Canadian cattle into the United States, and as a retort, Secretary Sherman at once issued an order prohibiting the importation of Canadian cattle into the United States. The Canadian authorities have been in consultation with Treasury officials, and, as a result, both orders have been removed. sible to this point, and would afford the cheapest possible transportation of the charcoal to a furnace should one be espassed a bill fixing the number of trial tablished. The completion of the Jack-jurous at 15 instead of 12, in all counties

so often by the TRIBUNE, and investigation has shown the advantages of this location for such a project so plainly that we deem it unnecessary to more than capitalists have thought favorably of the cordance with our well established policy that the establishment of a dock was an assured fact. The necessity of a drydock in this section is apparent to all who have given any thought to the matter and, some of the leading papers of the most important take ports have advocated the measure. There is no better location for a dock than is afforded by Cheboygan, and we are confident one would prove remunerative.

cordance with our well established policy the control of any canal across the istimus must be kept under the special protection of the United States. The resolution is in effect a notification to the European powers that this country will not consent to the construction of opperation of the canal under their control or any charter recognizing their authority and jurisdiction.

One of the points of special significance in the proceedings of the New York and Pennsylveniz conventions is bad enough, as there was no room for project and at one time it was thought that the establishment of a dock was an assured fact. The necessity of a dry-

As to a tannery, the vast hemlock forests in this vicinity would supply of so many of the Grant delegates. And the bark so necessary for the business at a comparatively small cost. The number of hides shipped from here each year, ly follow that, in case Gen. Grant is not already amount to a considerable num. already amount to a considerable number and with those from other places in the vicinity would go some ways towards supplying a stock, beside the excellent shipping facilities would afford an opportunity for securing such an additional portunity for securing such an additional supply as might be needed. A considerable quantity of leather is used here and the amount will constantly increase, which would afford a home market for a

For the various manufacture of hard wood the material, in the shape of maple' red and yellow birch, and beech, is here in abundance and the settlers, clearing up farms, would be glad for a market, at low rates, for timber that now is of but little value. Those having capital awaiting profitable investment would do well to investigate the many advantages offered here, for we are satisfied that the advantages are such as to commend themselves to the minds of any person seeking a lucrative business.

A nonmation was being sidered, and Senator Edmunds objected to confirmation, saying that the man had been a defaulter. Mr. Thurman quickly laid down his cigar, and springing to his feet said: "Mr. President, I had not intended to say a single word upon this matter, but the Senator from Vermont has thrown a brick at an Ohio man, and I must resent that." Mr. Edmunds, with assumed seriousness, retorted: "You can't throw a brick in any direction these days without striking an Ohio. seeking a lucrative business.

akes him out of the list of Democratic Presidential candidates, the Democratic papers tell us. What will they do for a candidate? We fear they will all have to vote for the Republican nominee.

WILLIAM H. VANDERBILT, who has been prudently laying by something for a rainy day, has salted down five and a half mil THE House Committee on Public Lands has determined to report favorably upon the bill authorizing the Secretary of the Interior to dispose of a portion of the

THE Chicago Times says: "A Demo cratic judge of election in Cumberland county, Illinois, was sentenced in the his order prohibiting the payment of money orders to the lottery agent who who has appealed to the Supreme court of the United States, until the case is decided by that tribunal.

Notwithstanding over \$6,000,000 in pensions were payed out during the month of February the surplus revenues.

> THE long discussion over the rules, which has occupied a great part of the time in the House for the past two time in the House for the past two months, was concluded Friday of last week in committee of the whole. The whole matter is still to be gone over again in the House, but there are only a few points over which any contest will be made, and the subject would doubtless be disposed of this week. The appropriation committee will then bring forward their bills, which are in a very backward condition, the third month of the session having closed without action upon a single one of the great money bills, or, indeed, any bill of importance.

THE contest over the star route defi ciency bill ended in a victory for the Appropriacion committee, who recommend ed giving the department about half what it wanted, and surrounding its ex-

CONGRESSMAN WM. D. HILL, of the ported as saying that the Democratic parity proposes to tautigurate its nomi-nee for President whether he is elected on tot. Nothwithstanding the terrifies leaders of the party protest that it wa-only a "picturesque figure of speech, the Democratic performance in Main and their more recent attempt to steal; representative in Minnesota, totally ig-noring a Republican majority, of over 3,000, would indicate that Mr. Hill knew whereof he spoke, and in the expherwhereof he spoke, and in the exuberance of his spiri's blurted out from the fullness of his heart the real feelings and intentions of his party.

How it was Done in Maine.

The investigating committee of the son, Lansing & Saginaw road will add having 10,000 or more population, leaving to the facilities for shipping in addition ing the law to stand which requires 12 inwardness of the recent attempt to to the facilities for shipping in addition to that afforded by the steamers upon the lake route, and enable the disposition of the products of a furnace at all possible in Iowa for one, two, or three legislature by such men as they, at the seasons of the year and to all sections of the country.

The dry-dock project has been set forth to a control by the Tripung and investigation of the control by the Tripung and investigation of the year and to all sections of the year and the year and year an the manner of doing the dirty work. A RESOLUTION asserting the Monroe, The Chicago Times, Democratic, gives the doctrine relative to the proposed inter- following in regard to one senator who was rightfully elected but fradulently call attention again to it, and state that House last week. It affirms that in accounted out, that a coalition man might have his place.

bad enough, as there was no room for doubt as to the intention of the voters. But there was still left a majority of 23 for Smith, and in order to overcome this, the virtuous fusion council had recourse to downright forgery. The town clerk of Somerville testifies before the committee that he sent in a certificate proporty made up in onen town meeting. will go to Blaire, and that no sort of maneuvezing can prevent this, or can transfer the Grant strength bodily to any "dark horse." This makes it all the more probable that one of these two great leaders will be nominated.

It was thought at the Treasury department that the total receipts from customs in February would be nearly \$15,000,000, and from internal revenue about \$9,000,000. Taking this as a basis, it is which would afford a home market for a portion of the product, and the low freights to the great markets, afforded by water transportation, would enable the surplus to be disposed of to a very great advantage.

The paper business is just now booming and all matter going into its manufacture is in great demand. Wood pulp has become quite a factor in the manufacture of paper and in this state there are a number of factories for its production, and all doing well. In this vicinity there are large quantities of poplar or any other purpose is comparatively of little value and pulp manufacture would utilize the timber that otherwise would be useless, and the pulp could be easily and cheaply transported to the market offering the best inducements. The completion of the Black river improvement will afford ample water power for various nurnoses and wa think would be useless, and the pulp could be easily and cheaply transported to the market offering the best inducements. The completion of the Black river improvement with his feet elevated upon a chair and would be useless, and the pulp could be easily and cheaply transported to the market offering a major warious and water of the completion of the Black river improvement with his feet elevated upon a chair and water of the forget of the transaction. The Garcelone do the pulp could be easily and the expense of Ohio Senator Thurman was seated at his desk with his feet elevated upon a chair and Monrea. Heard From.
